

BENTLEY'S RESORT HOTEL

It's sophistication where you'd least expect it. Intimately tucked between Sarasota and Venice and within minutes to world-class Gulf Coast beaches, is Bentley's Resort Hotel, the area's newest and most sophisticated accommodation.

Proprietors Paul & Carolyn Martin and Rod Thomas envisioned what the destination needed and redesigned the seven-acre resort property, situated in Osprey, with a designation and expectation that rival many five star resorts.

"We wanted a resort hotel that offers travelers every available amenity. Not just during their business or celebratory event, but also have the ability to unwind poolside with a cold drink, enjoy a fine meal at our onsite restaurant and dance the night away at Jaguar's, the hotel's lounge", stated Paul Martin.

Each of the hotel's meeting rooms and gathering areas are aptly named for the owner's passion of European Cars. The Rolls and Royce are two newly-renovated ballrooms with a breakout wall, able to accommodate 400-plus. Smaller meeting areas include the Lotus, which overlooks the pool area and four private conference rooms.

Outdoors, an infinity-edge pool area is a highlight. Surrounded by spacious decking and an outdoor Tiki Bar, guests can relax and soak up this sophisticated atmosphere. An outdoor gazebo overlooks the pool area, which Martin

added is popular for couples planning their onsite wedding.

When it came to only the finest of things, Bentley's Beach Resort doesn't disappoint. Newly renovated guestrooms include king beds, private balconies and luxurious furnishings highlighted by floor to ceiling windows, that overlook the pool deck.

"Our mission at the hotel is See it; Feel it; Love it; Live it! We are continuing to grow and develop new ways to anticipate our guests needs".

Bentley's offers entertainment every weekend, featuring live singers at the Tiki on Fridays, a Sunday live jazz brunch and "big" dance band on Saturday nights.

Future plans include an onsite fitness center and Club Bentley's, a traveler's discount and amenity use program. *
